Integral Cassette Awning

Indoor-outdoor flow has become a necessity in contemporary design. The Integral Cassette Awning helps New Zealanders enjoy and enhance courtyards, sheltered retreats and outdoor rooms year-round.

The classic design of the Integral Cassette awning works well across a range of architectural and design styles. The Integral Cassette is compact in size and renowned for its reliability, thanks to quality components that have long-served the European awning market.

Easy to install and operate, the awning can be retracted when not in use, ensuring the canvas and folding arms are completely concealed and not compromised by the elements. For effective sun protection, ease of use and style – the Integral Cassette is an excellent option for all environments.

Create a versatile, beautiful outdoor space that connects seamlessly to your home and garden, while providing shelter from the elements.
