Omni Screen

Indoor-outdoor flow has become a necessity in contemporary design. Omni screens help New Zealanders enjoy and enhance courtyards, sheltered retreats and outdoor rooms year-round.

Sleek, stylish and durable, the Omni Screen incorporates smart design and practicality. Shade and privacy are instantly provided thanks to the automated or hand-operated system.

Omni Screen offers three different systems to best suit the application, Omni Lite, Omni Guide and Omni Channel.

Omni Lite Is a minimal straight drop screen which anchors to the ground when lowered and rolls neatly away when not in use.

Omni Guide A wire guided straight drop screen which allows the user to stop at any level in the drop. The wire guide allows safety of operation when rolling away.

Omni Channel Has the addition of side channels to increase protection and provide a streamlined finish. A selection of colours are available to suit any décor, delivering a combination of style and functionality.

Create a versatile, beautiful outdoor space that connects seamlessly to your home and garden, while providing shelter from the elements.

Features	WIDTH X HEIGHT	OPERATION	COMPONENT COLOURS

Fabric

Colour - the key to creating the perfect environment for you. Our hardwearing fabric range has been carefully developed to make the very best outdoor living accents.

Designed and manufactured in Europe and known for its superb quality with three different fabric ranges to choose from. Soltis Lounge 96 and Horizon 86, providing UV protection with a 10 year warranty and a sophisticated colour palette to suit any décor.

Shadeview fabric cleverly diffuses light, lends a pared-back finish and optimises views but it still protects you and your home from the elements.

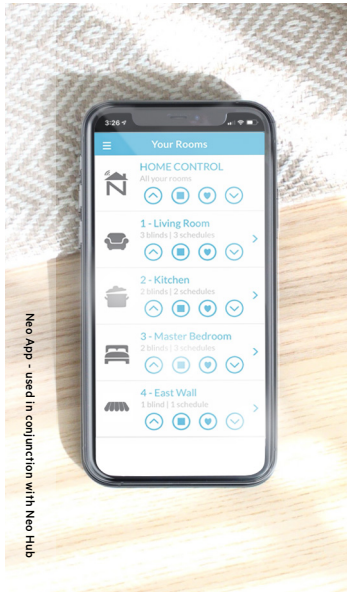

Designed for the New Zealand climate, dimensionally stable clear PVC is the best solution when an unobstructed view is required, while providing full wind and rain protection.

Automation

Screens can be automated to respond to the touch of a button, allowing you to relax and enjoy the ease of remote operation.
